

Dear Shawn

As noted in our earlier conversation I wanted to thank you for the amazing help and support during the transport of my father back home. It was so reliving to have someone like you assist me while I was out of my house in a new town with no one to assist me or my father.

Your company did everything you said, the plane arrived on time and although I was kind of scared at first, the flight was very good and the medical team cared for my dad the whole time.

I wish you the best

Stuart
